SUMMARY

Mobile application developer based in Toronto, Canada, and a mobile applications student with three years of experience in mobile applications development, one year in web development and nearly one year in backend development. Gets excited about developing things that live on the internet, whether websites, applications, or anything in between.

Experience

Senior React Native Developer (Remote)

August 2022 – Present

Junior React Native Developer

April 2021 – July 2022

Fugetron Corporation - Los Angeles, USA

- Actively developing mobile applications using React Native, iOS (Swift), and Android (Java).
- Collaborating with the other developers, designers, QA experts, and managers.
- Working closely with clients to meet the application requirements, goals, and desired functionalities.
- Handling deployments on both App Store and Play Store.
- Managed a team of 5 developers to develop and enhance applications.
- Introduced new development and optimization approaches within the application, which helped boost the application performance by almost 60%.
- Implemented coding best practices that improved the efficiency of the code and the team members.
- Developed native plugins on both iOS and Android platforms for our hybrid application.
- Received **Best Innovator Award** for the 3rd Quarter of 2021.

React Developer

October 2021 – November 2021

Fugetron Corporation - Los Angeles, USA

- Developed web applications using React JS.
- Collaborated with the other developers, designers, and managers.
- Added new and improved existing security within the application.
- Translated wireframes or prototypes from Adobe or Figma into responsive web pages.
- Worked with state management APIs such as Context and Redux.

Software Developer

April 2020 – January 2021

Bomblr Technologies. – Mumbai, India

- Transformed the XD design into a functioning app using React Native.
- Enabled offline usage with the help of the local SQL database.
- Implemented real-time one-to-one and one-to-many messaging, push notifications, data security, and more.
- Integrated Firebase's real-time database, cloud firestore, cloud storage, and cloud functions

Education

Mobile Applications Design & Development (Postgraduate)

September 2022 – Present

Lambton College – Toronto, Canada

Bachelor of Science in Information Technology

June 2017 – October 2021

Mumbai University – Mumbai, India

Grade – 9.13 CGPI

Skills

- React Native
- Android (Java)
- iOS (Swift)
- React JS
- Node.js
- Firebase
- SQL

Achievements

- Placed in Lambton College's [Fall 2022 Dean's Honour List](#).
- Other programming event certificates can be found on my [drive](#) or by scanning the below QR Code.
